WORK EXPERIENCE

Infrastructure & Storage Engineer | 2023 – Present

PROREXEM

- Design and implementation of high-performance, secure storage infrastructures (NetApp, vSAN, production migrations)
- Deployment of backup and data protection solutions (Veeam, Hardened Repository, S3, externalization)
- Datacenter hosting management (VMware, vCenter, ESXi, networking)
- Datacenter network administration (WatchGuard, HP, Aruba)
- Project management and technical documentation within ISO 27001 and HDS frameworks

Systems & Network Administrator | 2020 – 2023

Forezienne MFLS

- Installation and administration of network equipment (Fortinet, Cisco, MPLS)
- Supervision and management of virtualized infrastructures (Hyper-V, ~50 VMs)
- End-user IT support

ACADEMIC HISTORY

ESGI Lyon | 2023 – 2025

Master's Degree – Systems, Networks & Cloud

- Network design and administration
- Deployment of hyperconverged virtualization solutions (VMware, Proxmox)
- Cloud solutions management (Azure, AWS, GCP)

IUT Jean-Monnet Roanne | 2022 – 2023

Professional Bachelor's Degree – IT

- Large-scale network design (OSPF, iBGP/eBGP, backbone)
- Deployment and maintenance of telephony solutions (3CX)
- Infrastructure security (restrictions, CVEs)

CERTIFICATIONS

Storage Infrastructure Engineering | 2026

NetApp NCSIE – ONTAP – Storage Installation Engineer

Network Infrastructure Design | 2025

Cisco CCNP Encore – Configuration and management of complex network equipment

Network Security Management | 2023

Stormshield Network Administrator – Deployment and security of networks (Additional experience with WatchGuard and Fortinet)
